

957958 Wiper Motor and Switch for TR/SW/Jeepster

A – High Speed = Yellow

B – Power through switch = Green

C – Low speed = Black

D – Power from ignition switch with inline fuse = Red

** Ground is completed with motor and switch mounted to the body**

1. Mount wiper motor on firewall with supplied screws
2. Hook up wires on the switch. Note – slight bending on terminals might be necessary to clear speedometer
3. Run wires out of the firewall hole that the cable switch ran through and hook up wires to wiper motor. Be sure to use firewall grommet.
